COMPANY PROFILE

Since 1987, Tru-Catch has been the industry leader in creating quality humane live animal traps and carriers. Animal control officers, humane societies and volunteer relief groups across the country recognize our long-standing reputation for building traps that last and have a 98% catch rate.

All TruCatch Traps are made in America by our parent company, Manufacturing Systems, Inc.

Based in Belle Fourche, South Dakota, Manufacturing Systems, Inc. (MSI) encompasses several divisions, including Agricultural Products, the Automotive and Industrial Equipment Division, and Animal Care and Control. Each division is solely responsible for research/development of new product lines, and acquisition of other existing companies' products that need refinement, marketing or a distribution thrust.

MSI's distribution covers the entire United States. An aggressive marketing/advertising program is a vital part of all MSI product lines. The advertising efforts instill product awareness and build brand loyalty, which in turn builds bottom line sales.

An active dealer support program is an integral part of the backing given to handpicked dealers across the United States.

MSI will provide the best quality and durability to an ever-changing marketplace. Users appreciate the quality of construction, ease of operation, and the humane features of TruCatch Traps.

Our staff will be happy to answer any questions you may have, and look forward to doing business with you.

We would like to take a moment to remember our President and CEO, Cy Bidwell, who passed away in January of 2012. Cy made Tru-Catch what it is today and he will be dearly missed.

Thank you to all who knew Cy and appreciated his loyalty, business knowledge, and ability to help others.

Big things are happening at Tru-Catch and none of it would have been possible without Cy's leadership. 2016 is shaping up to be a busy year for Tru-Catch and we look forward to you all being a part of it.

Cyrus Bidwell

Tru-Latch Gate Latch

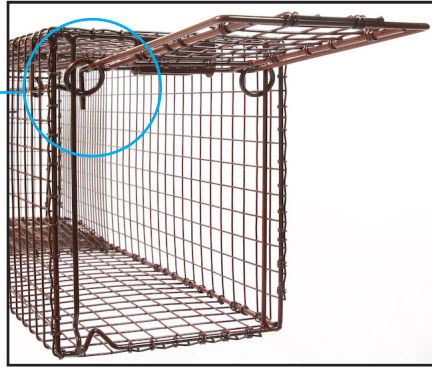

CONTENTS

SETTING YOUR TRU-CATCH TRAP:

1. Using your index fingers, raise both rings to the top of the door.
2. Use your middle finger to flip open and raise the door.
3. With your right hand, set the door on Variable Trigger Setting.
4. Your Tru-Catch Trap is now set and ready for bait.

ADJUSTABLE TRIGGER ROD
(moving it down creates a sensitive setting for lighter animals)

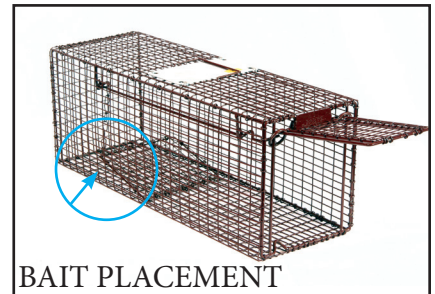

COMPREHENSIVE BAIT LIST:

- ARMADILLO:** Meal worms, maggots, sardines, or fish work great.
- BIRDS:** Sunflower seeds or scratch grain.
- BOBCAT:** Liver, lungs, other guts, fish, meats
- CAT:** Fish, Meats, oil of catnip or sardines.
- CHIPMUNKS/SQUIRRELS:** Prune pits, unroasted peanuts, corn, sunflower seeds, peanut butter, cereal, grains or popcorn.
- COYOTE:** Freezer burnt game meat, fresh mice, rotten eggs
- DOGS:** Dog food, cooked meats, leftovers/scraps
- RED AND GRAY FOX:** Rancid fish or meat, rotten hard boiled eggs, chicken.
- GOPHERS:** Peanut butter mixed with molasses, spread on whole wheat bread.
- MICE/RATS:** Cheese, bread and butter, small nuts, cherry pits, oatmeal, sunflower or similar seed, mixed peanut butter and oatmeal.
- MINK/WEASELS/OTTER:** chicken entrails, fresh fish, fish oil scent, parts of rabbit, fresh liver.
- MUSKRATS:** Fresh vegetables, parsnips, carrots, sweet apples, or musk from another muskrat.
- NUTRIA:** Muskmelon or cantaloupe rind, ripe bananas.
- OPOSSUM:**Vegetables, hotdogs, chicken entrails, sardines, lunch meat, bacon, canned cat food.
- PORCUPINE:** Apples, salt, carrots.
- RABBIT:** Fresh vegetables, brussels sprouts, cabbage, carrots, lettuce or apples. In the winter use bread. Spraying the inside of the trap with apple cider is effective.
- RACCOON:** Marshmallows, canned tuna, sardines, raw fish, smoked fish, sweet corn, fruit, peanut butter, honey/sugar covered vegetables, or dog food.
- SKUNK:** Chicken entrails, fresh or canned fish, insect larvae, crisp bacon, eggs, cat food.
- VOLES:** Peanut butter mixed with molasses spread on whole wheat bread.
- WOODCHUCK/GROUNDHOG:** Broccoli, fresh string beans, sweet corn, lettuce, peas, cantaloupe, strawberries, cucumbers, peaches.

BAITING YOUR TRU-CATCH TRAP:

Place a small amount of bait approximately 3 to 4 feet in front of the trap, and again approximately 1 foot in front of the trap, and then a small amount just inside the trap door and a spoonful just behind the trip pan.

To release an unwanted animal from your Tru-Catch Trap, use the rear release door on the "D" models or simply turn the trap over on its top for the single door models and the door will automatically open for release.

ADJUSTING YOUR TRU-CATCH TRAP:

Some traps need minor adjustments for optimal tripping and others that have been in use for some time occasionally need to be calibrated. This simple trick can have you back to trapping in no time.

The Tru-Catch Trap Tool is used to make minor adjustments when a trap is not setting as it should.

If you don't have a trap tool just use a pair of pliers handles to apply upward or downward pressure, tweaking the door in the necessary direction.

When the trap is set, if the front door is too elevated, the trigger bar doesn't have enough friction to stay set.

If this is the case, use the tool or plier handles to pry *out* on the door frame using *upward* force.

When the trap is set, if the front door is too low, the trigger bar has too much friction and the trap will not trip.

If this is the case, use the tool or plier handles to pry *in* on the door frame using *downward* force.

Ultimately the door should be parallel with the ground with the trigger set.

ADJUSTMENTS

1" x 1/2" wire mesh prevents small animals from squeezing out of the trap.

MODEL 24 TUFFY

\$52.99

- Kittens
- Mink
- Weasels
- Squirrels

Powder coated for durability and long trap life.

Our best-selling trap is used by:

- Humane Societies
- Animal Shelters
- Animal Control
- Rescue Organizations
- Trap-Neuter-Return programs

\$74.99

- Feral Cats
- Kittens
- Rabbits
- Other small animals

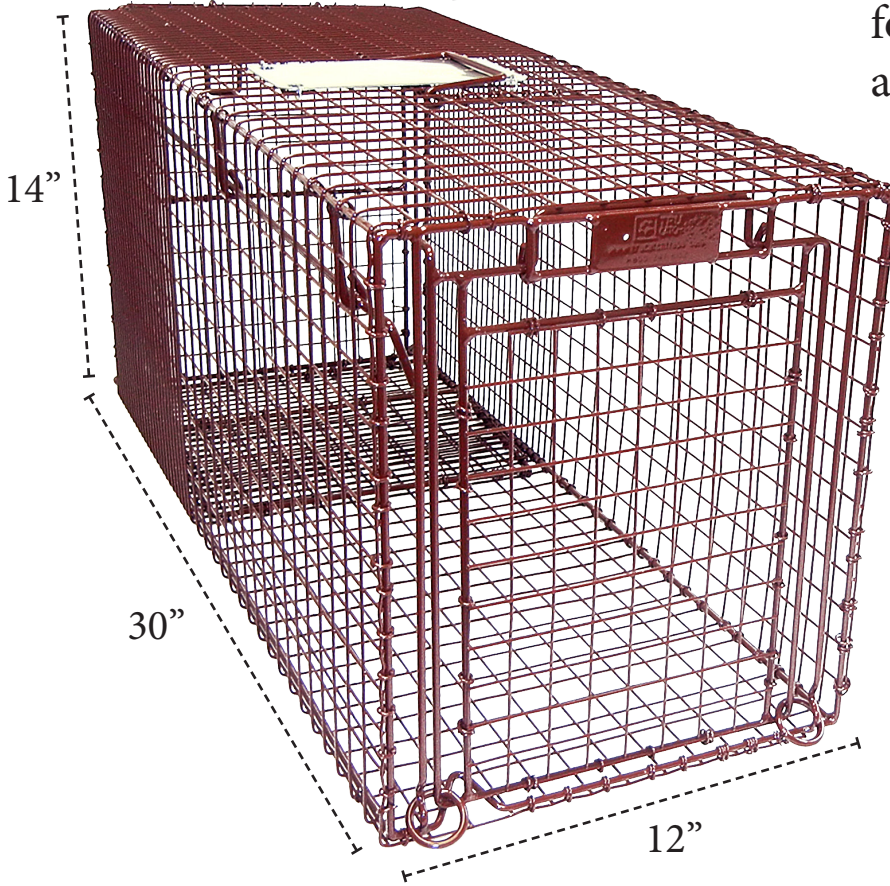

*Features an optional divider and trap tray listed on page 23-24.

MODEL 30LTD LIGHT DUTY

MODEL 30FCD FAT CAT

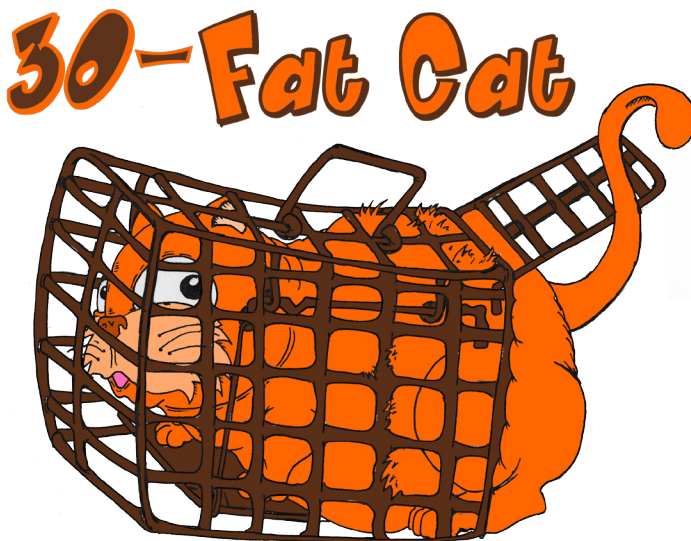

Features a rear door for easy baiting and animal release.

\$90.99

- Feral Cats
- Kittens
- Large Cats
- Small Dogs

The 30-Fat Cat will accommodate those cats that are simply too big for our 30-LTD trap. It allows the animal more room to move around while captive and is suitable for smaller cats as well.

The Fat Cat Model retains the lightness and user-friendliness of the 30-LTD.

*Features an optional divider and trap tray listed on page 23-24.

TNR T-SHIRT

Tru Catch Traps encourages TNR, or “Trap-Neuter-Return” programs for feral cat population management. Show your support with a Tru Catch T-N-R shirt!

\$13.99

Sizes Available: Medium, Large, Extra-Large

TNR PET FOOD COVER

\$4.99

This Canned Pet Food Cover is a promotional item designed by Tru Catch Traps. The Cover fits 3 Can Sizes from 3oz to larger family size cans.

While being Top Rack Dishwasher safe makes cleanup an ease, they are also stack-able to reduce space when not in use. Also features a very convenient Pull-tab for easy removal.

Overall Dimensions are 3.75” by 0.50”

TNR AWARENESS MAGNET

Tru Catch Traps supports TNR, or “Trap-Neuter-Return” programs for feral cat population management. Show your support with a brand new Awareness Ribbon Magnet!

Place this TNR Awareness Ribbon on your vehicle or anywhere else to show your support and dedication for the local feral cat colonies.

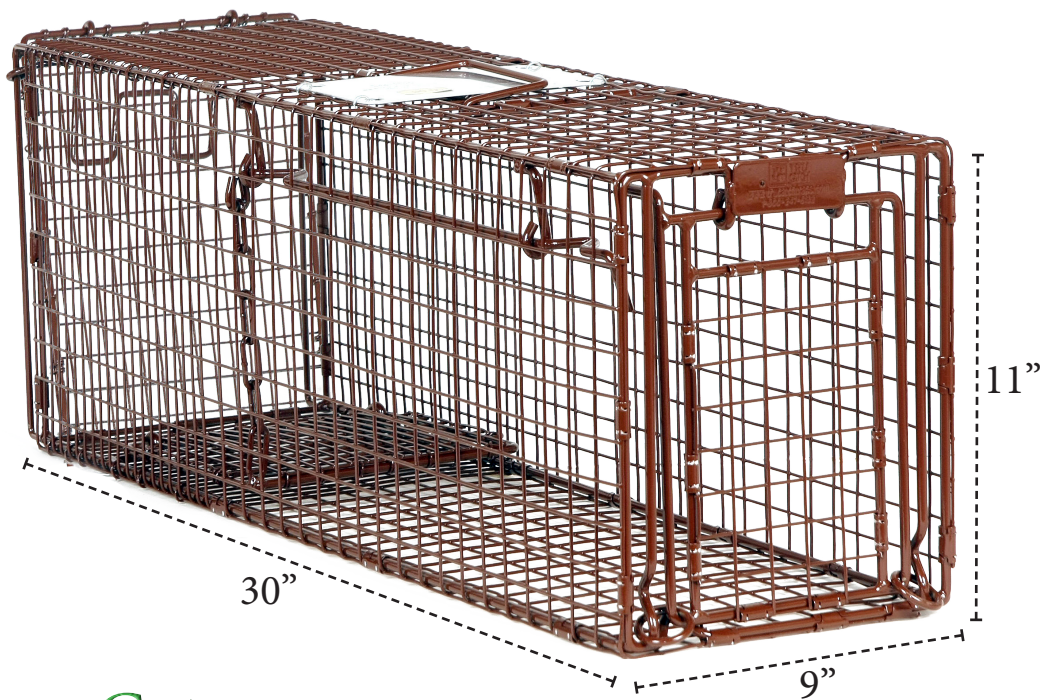

\$5.99

TRAP-NEUTER-RETURN

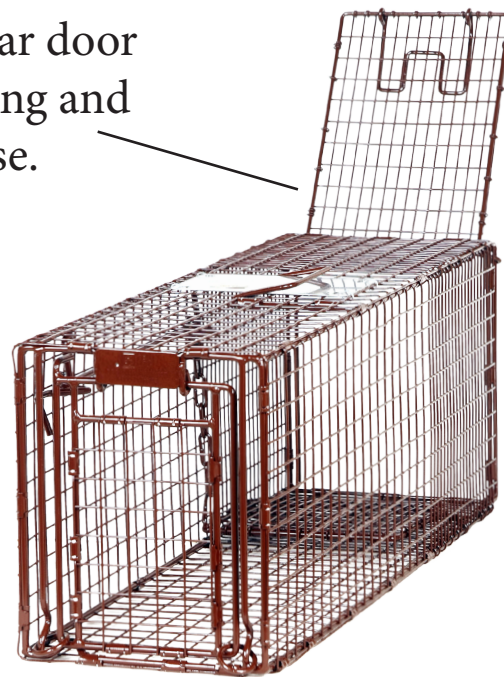

MODEL 30D WILDCAT DELUXE

- Cats
- Skunks
- Rabbits
- Raccoons

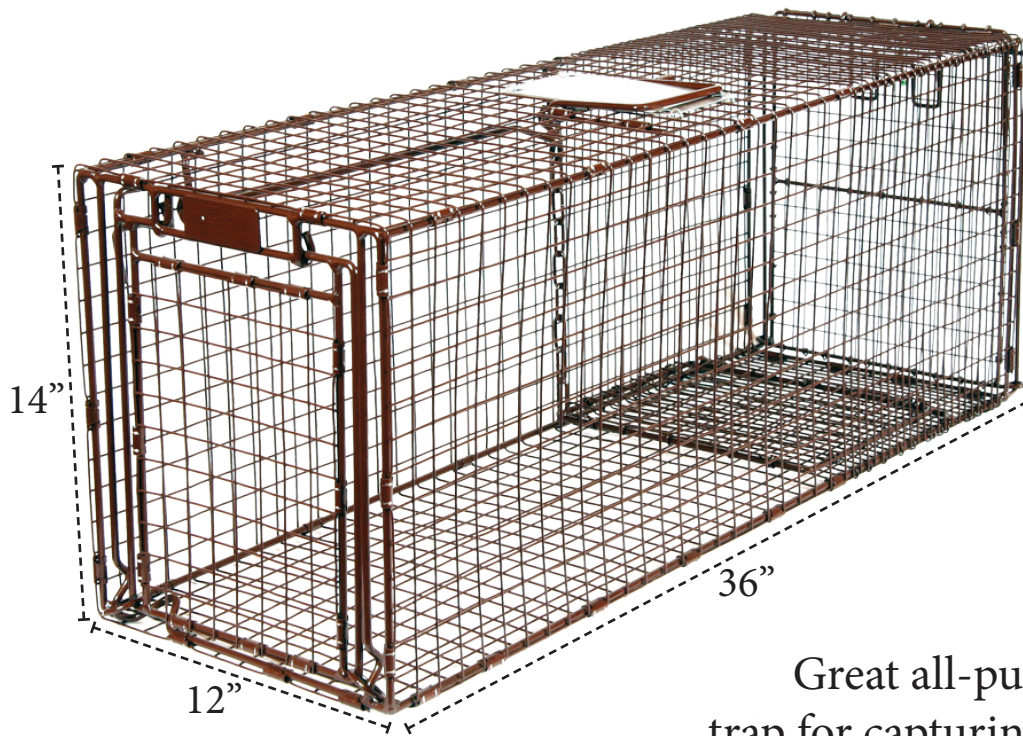

Features a rear door for easy baiting and animal release.

\$95.99

*Features an optional divider and trap tray listed on page 23-24.

- Raccoons
- Skunks
- Cats
- Small dogs

Great all-purpose trap for capturing and transporting medium sized animals.

\$105.99

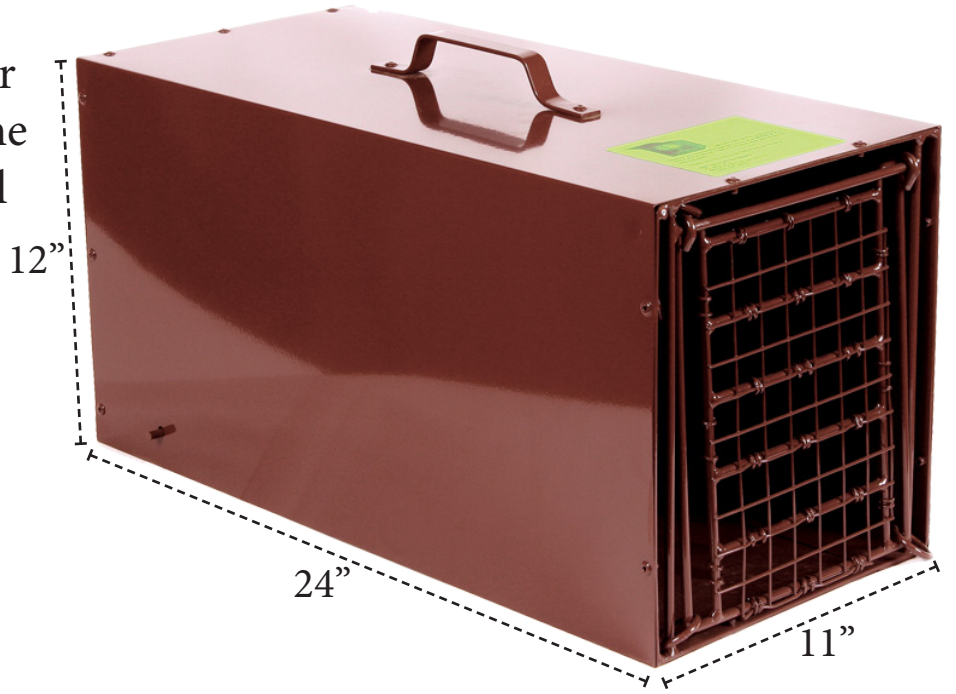

MODEL 36D CLASSIC DELUXE

Weight: 15 lbs

MODEL R24 RESISTER-SKUNK TRAP

Contains no springs or hinges that increase the chance for mechanical failure.

\$113.99

- Skunks
- Armadillos

Our ring-door closure design and adjustable trigger system ensure high catch rates.

The steel panel body protects the handler from being sprayed or scratched.

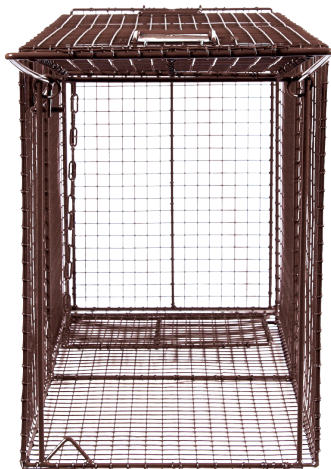

MODEL 42D HOMESTEADER DELUXE

- Dogs

Model 36 Trap Liner **\$20.99**
Model 36 Trap Cover **\$27.99**

TRU-CATCH CARABINER CLIP

\$0.59

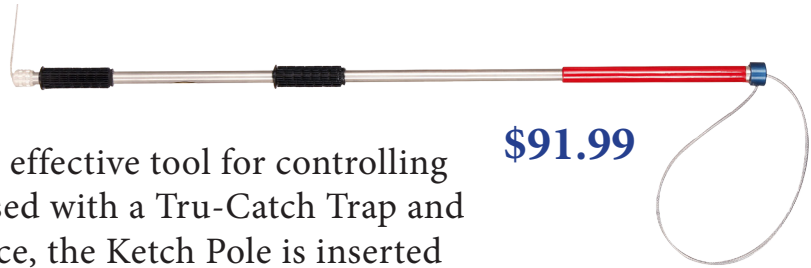

The Tru-Catch Carabiner Clip is intended to secure the trap's rear door to prevent accidental release of a captured animal in the event that the door handle is improperly used as a carry handle.

KETCH-ALL POLE

The Ketch-All Pole is a humane and effective tool for controlling dogs. The Ketch-All Pole is easily used with a Tru-Catch Trap and divider. With the trap divider in place, the Ketch Pole is inserted through the bars and looped around the dog's neck. The divider can then be removed and the dog led out with the Ketch-All Pole.

\$91.99

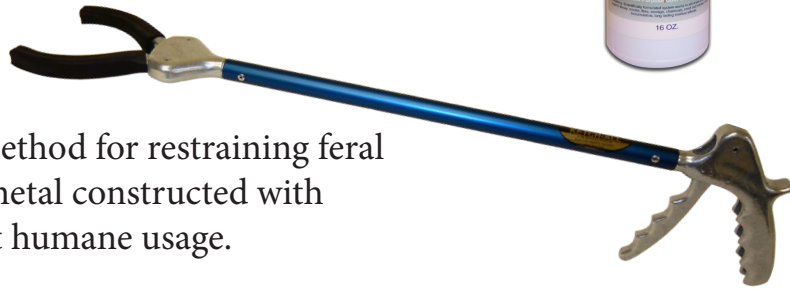

AMAZING! NOK-OUT \$16.99

Non-masking. Scientifically formulated system works to eliminate odors caused by organic decay, smoke, fires, sewage, mold and mildew, and animals. Nok-Out can be used to deodorize Tru-Catch traps, carriers and accessories.

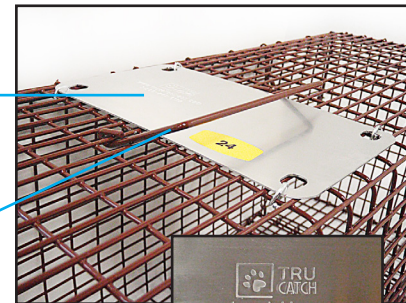

CAT GRABBERS \$76.99

Ketch-All Cat Grabbers offer a safe method for restraining feral and angry cats. The grabbers are all-metal constructed with cushioned rubber ends for sturdy, but humane usage.

TRAP HANDGUARDS \$1.50 each

Handguards are standard on every Tru-Catch Trap and protect the handler's hand from being scratched when transporting an animal. Additional or new handguards may be purchased and zip-tied onto the trap.

EXTRA TRAP HANDLE \$1.50 each

Some trappers prefer to put an additional handle on one end of the trap for easier carrying.

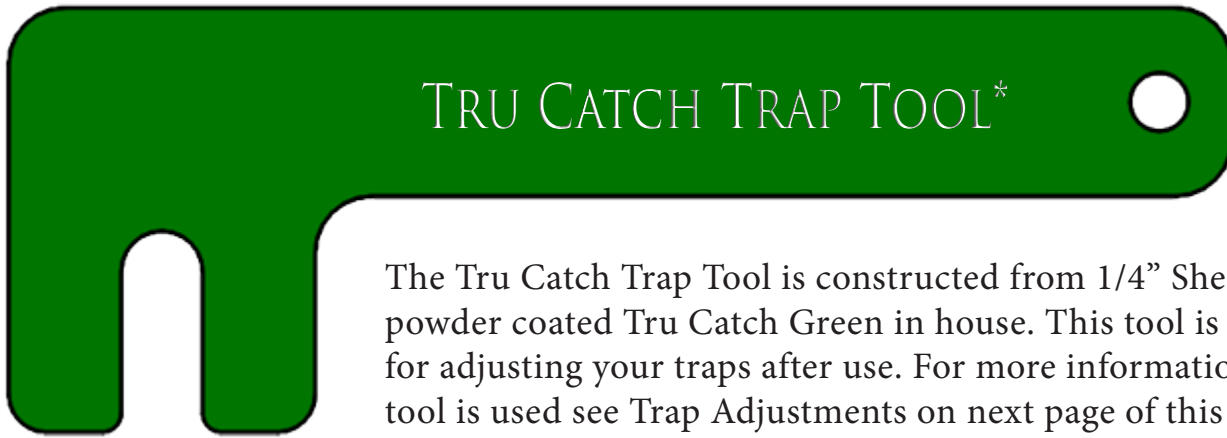

WHEEL KIT \$73.99

The wheel kit allows easy transport of not only our larger traps, but the animal that the trap may contain. The wheel kit quickly attaches to the trap with two tie-down straps (included), and fits trap sizes 42 through 72.

TRAP ACCESSORIES

TRU CATCH TRAP TOOL*

*Actual Size

\$5.99

The Tru Catch Trap Tool is constructed from 1/4" Sheet Metal and powder coated Tru Catch Green in house. This tool is primarily used for adjusting your traps after use. For more information on how the tool is used see Trap Adjustments on next page of this catalog.

NOTES

MODEL 234 GATE LATCH

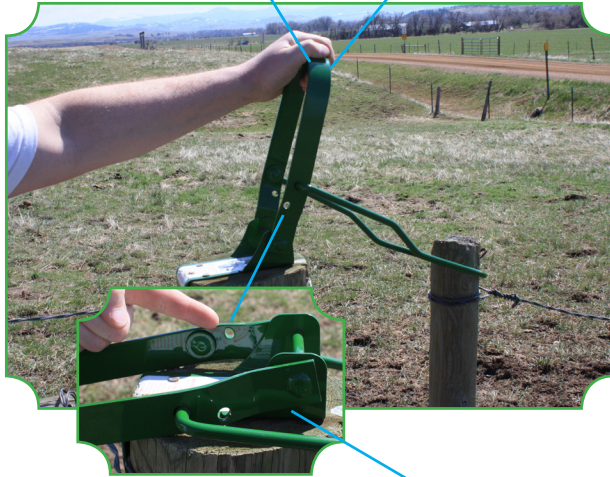

Shipping Weight: 4 lbs/ea or 26 lbs/box

\$26.99/ea or \$161.94/case

The Tru-Latch features our “Cam-over positive locking” system and an easy-to-pull handle.

Case=6 Latches

All-steel construction

It also features padlock holes to lock the gate and keep out any intruders, or simply for added gate security.

Fully powder coated for durability against use and weather.

THE TRU-LATCH

-  The Tru-Latch’s padlock holes provide extra security to deter trespassers, poachers and other unwanted visitors. Protect your property with a Tru-Latch.
-  The Tru-Latch is a simple and effective gate latch that is easy to use by men, women, children and even from horseback.
-  It is the only gate latch for barbed and straight wire fences that is approved by the Wyoming Department of Transportation.
