

SETTING YOUR TRU-CATCH TRAP

1. Using your index fingers, raise both rings to the top of the door.
2. Use your middle finger to flip open and raise the door.
3. With your right hand set the door on Variable Trigger Setting (as shown below).
4. Your Tru-Catch Trap is now set and ready for bait.

ADJUSTABLE TRIGGER ROD
(moving it down creates a sensitive setting for lighter animals)

The Tru-Catch clip is intended to secure the trap's rear door to prevent accidental release of a captured animal in the event that the door handle is improperly used as a carry handle. *For traps with a rear door.

BAITING YOUR TRU-CATCH TRAP

Take a small amount of bait and place it approximately 3 to 4 feet in front of the trap, and again approximately 1 foot in front of the trap, then a small amount just inside the trap door and a spoonful just behind the trip pan.

To release an unwanted catch from your Tru-Catch Trap use the rear release door on the "D" models or simply turn the trap over on its top for the single door models. The door will automatically open for release.

MODEL# 30FCD Fat Cat Deluxe

USE: large cats

Model # TD-2 Trap Divider
Keeps animals in rear of trap for easy release. May be used to transfer animals from a trap to a carrier. Also enables the handler to use a catch pole without worry of escape or harm.

Other Traps available:
Model # 30-LTD
The 30 Light Duty Deluxe, shown here with the TD-2 Trap Divider and Tray, is ideal for capturing and treating feral cats and other small animals.

Comprehensive Bait List

- ARMADILLO: Meal worms, maggots, sardines, or fish work great.
- BIRDS: Sunflower seeds or scratch grain
- CAT or BOBCAT: Fish, Meats, oil of catnip or sardines.
- CHIPMUNKS: Prune pits, unroasted peanuts, corn, sunflower seeds, peanut butter, cereal, grains popcorn
- RED AND GRAY FOX: Rancid fish or meat
- GOPHERS: Peanut butter mixed with molasses, spread on whole wheat bread
- MICE OR RATS: Cheese, bread and butter, small nuts, cherry pits, oatmeal, sunflower or similar seed, mixed peanut butter and oatmeal, gum drops, flour.
- MINK: chicken head and entrails, fresh fish, fish oil scent, parts of rabbit, muskrat, fresh liver
- MUSKRATS: Fresh vegetables, parsnips, carrots, sweet apples, or musk from another muskrat
- NUTRIA: Muskmelon or cantaloupe rind, ripe bananas.
- OPOSSUM: Vegetables, sweet apples, chicken entrails, sardines, crisp bacon, canned cat food.
- OTTER: Fish
- PORCUPINE: Apples, salt, carrots
- RABBIT: Fresh vegetables, such as Brussels sprouts, cabbage, carrots, lettuce or apples. In winter bread is good bait. Spraying the inside of the trap with apple cider works also.
- RACCOON: Anything of a fishy nature: sardines, raw fish, smoked meat, sweet corn, fruit, molasses, peanut butter or honey.
- RINGTAIL OR CIVET CATS: Same as the raccoon.
- SKUNK: Almost anything edible; chicken entrails, fresh or canned fish, insect larvae, crisp bacon, eggs.
- VOLES: Peanut butter mixed with molasses spread on whole wheat bread.
- WEASELS: Fish, fresh liver, chicken entrails.
- WOODCHUCK: Any kind of green vegetable, fresh string beans.
