# TRUCATCH

30LTF Setup Instructions
1

Congratulations!

You have purchased the first framed folding trap on the market.

After you receive the trap begin by unpacking the trap.

2

To unfold the trap begin by finding the latches.

There are two latches on the side of the 30LTF trap.

3

To release the latches, simply squeeze the trap and lift the latch hooks from the frame.

4

After you have found and released the latches you can unfold the trap.

5

As you stand the trap up, pull the doors to the upright position.

As you stand the trap up the doors and body of the trap should align squarely.

6

Insert the locking clip through each door, respectively. Align the holes while passing the clip through.

Once the locking clip is through both sets of holes, latch the clasp to lock the clip in place.

You have successfully completed setup of your TruCatch folding trap.

To fold the trap, follow the reverse order of the instructions.

Setting and baiting the trap is shown on the back.

GUARANTEE

Animal care and control products are backed by a 5 Year Guarantee (from date of purchase) that covers workmanship and animal damage.
SETTING YOUR TRU-CATCH TRAP

1. Using your index fingers, raise both rings to the top of the door.
2. Use your middle finger to flip open and raise the door.
3. With your right hand set the door on Variable Trigger Setting (as shown below).
4. Your Tru-Catch Trap is now set and ready for bait.

ADJUSTABLE TRIGGER ROD (moving it down creates a sensitive setting for lighter animals)

FIXED TRIGGER ROD

The Tru-Catch clip is intended to secure the trap's rear door to prevent accidental release of a captured animal in the event that the door handle is improperly used as a carry handle. *For traps with a rear door.

BAITING YOUR TRU-CATCH TRAP

Take a small amount of bait and place it approximately 3 to 4 feet in front of the trap, and again approximately 1 foot in front of the trap, then a small amount just inside the trap door and a spoonful just behind the trip pan.

To release an unwanted catch from your Tru-Catch Trap use the rear release door on the "D" models or simply turn the trap over on its top for the single door models. The door will automatically open for release.

Comprehensive Bait List

ARMADILLO: Meal worms, maggots, sardines, or fish work great.
BIRDS: Sunflower seeds or scratch grain
CAT or BOBCAT: Fish, Meats, oil of catnip or sardines.
CHIPMUNKS: Prune pits, unroasted peanuts, corn, sunflower seeds, peanut butter, cereal, grains popcorn
RED AND GRAY FOX: Rancid fish or meat
GOPHERS: Peanut butter mixed with molasses, spread on whole wheat bread
MICE OR RATS: Cheese, bread and butter, small nuts, cherry pits, oatmeal, sunflower or similar seed, mixed peanut butter and oatmeal, gum drops, flour.
MINK: chicken head and entrails, fresh fish, fish oil scent, parts of rabbit, muskrat, fresh liver
MUSKRATS: Fresh vegetables, parsnips, carrots, sweet apples, or musk from another muskrat
NUTRIA: Muskmelon or cantaloupe rind, ripe bananas.
OPOSSUM: Vegetables, sweet apples, chicken entrails, sardines, crisp bacon, canned cat food.
OTTER: Fish
PORCUPINE: Apples, salt, carrots
RABBIT: Fresh vegetables, such as Brussels sprouts, cabbage, carrots, lettuce or apples. In winter bread is good bait. Spraying the inside of the trap with apple cider works also.
RACCOON: Anything of a fishy nature: sardines, raw fish, smoked meat, sweet corn, fruit, molasses, peanut butter or honey.
RINGTAIL OR CIVET CATS: Same as the raccoon.
SKUNK: Almost anything edible; chicken entrails, fresh or canned fish, insect larvae, crisp bacon, eggs.
VOLES: Peanut butter mixed with molasses spread on whole wheat bread.
WEASELS: Fish, fresh liver, chicken entrails.
WOODCHUCK: Any kind of green vegetable, fresh string beans.

Thank you for using the Tru-Catch Trap
